UNIVERSITY of Alabama in Huntsville (UAH)
Bachelor of Science, **Computer Science Dec 2023**

Nicole Frische graduated December 2023 from the University of Alabama – Huntsville under a full 100% four-year scholarship. She is looking for a computer science related career opportunity (entry level and/or internship) to further sharpen her skills in the areas of programming, graphics design, and team project management.

While pursuing her computer science degree, Nicole became interested in game development to sharpen her skills in computer science to include programming, graphics design, and team management.

Nicole assembled a team of international talent for the development of a new 2D game: Havoc Fox (www.havocfoxgame.com). Nicole successfully led this team through the game's storyboarding, graphics design, programming development, and successful Kickstarter introduction in 2023.

Proceeds (>$40K) from this experience and others have been applied to furthering her education.

- Nicole has already proven to be a hard worker and can be immediately productive.
- Able to relocate and/or work onsite, hybrid, and/or remote.

SKILL SETS

Skill sets developed and acquired include programming, scripting, team management, project management, graphics/UI design, and business management.

TOOL FAMILIARITY

- Scripting/Coding: C/C#/C++, Java, SQL, LUA , GDScript/Godot
- Development/Production Frameworks: Unity, Clickteam Fusion 2.5, FL Studio 12.5/20, Audacity
- Graphics Design:
    - 2D Graphics, 3D CAD, Game Mechanics
    - Adobe Creative Suite – Photoshop/Illustrator, Maya, Aseprite, Paint Tool SAI 2
    - Portfolio of Graphics work: https://nicolefrische.wixsite.com/portfolio

Able to relocate and/or work remote/hybrid/onsite.
